CANADA'S THREE PER CENTS

Hon. Mr. Foster was not in session
at their Success.

OUR CREDIT IS GOOD IN LONDON

Subsidies for New Projects Will Depend
on Canada's Finance—A Permanent
Board of Arbitration Not Needed—Be-
tween Canada and the United States—
Reply of the Hon. Mr. Hurd.

LONDON, Nov. 1.—In an interview in re-
sponse to the success of the Canadian 3
per cent loan of £2,500,000, Mr.
George E. Foster, Canadian Minister of
Finance, said that the Canadian govern-
ment, as the reception accorded to pre-
vious Canadian loans had not anticipated
large subscriptions. No borrowing, how-
ever, has ever been so successful as this
one, and the Canadian government is
satisfied that the Canadian public is
willing to do what it can to help the
country.

Considering present conditions and
prospects half of the present loan
will be converted into the Canadian
loan contemplated.

"The Canadian state finances whether
further subsidies will be granted for com-
mercial projects, the reduction of tax-
ation of the last four years renders it im-
possible to make any more such projects
possible."

Mr. Foster will not intend to urge Great
Britain to consent to the establishment of
a permanent board of arbitration for
Canada and the United States. The differ-
ence between these two countries are
happy few and are becoming fewer.
The relations between Canada and the
United States are most cordial and friend-
ly and there is no reason to think they will
be lessened."

Arrested for Robbing Mail Bags.

KINGSTON, Nov. 2—Five young men, charged with the robbery of a mail train, were implicated in the robbery of the mail train at the G. T. R. junction depot on Wednesday morning, but no evidence of involvement in the robbery adding to the charges against them are guilty. They were in the vicinity of the depot late on Tuesday night and were taken together to the Kingston Police Station before the police magistrate yesterday morning and remanded until Saturday.

Broke His Child's Neck.

BETTON, Nov. 2—Robert Nicholas, who, in a fit of passion, threw a chair at his wife, and broke her neck, was charged with the children breaking the little one's neck. The doctor removed two pieces of bone, each as large as a twenty-five cent piece, from the child's neck, and said that at that rate the child can recover. Nicholas was promptly arrested and brought before the justice.

GRASPING AVERICIOUS CAPITALISTS

- - - ARE WHAT OUR COMPETITORS CALL US. - - -

Grasping, because we want the Trade of the earth! Avericious, because we hang on to the Almighty Dollar! Capitalists, because we have the money to tear them to pieces in the Wholesale Markets!!!

You can see what it amounts to. Success ever brings envy and distrust. If we were only half so successful, we would be feared only half as much as we are. Our push and principal alarm our competitors. Our business grip makes them wince. Our big sales excite their envy. Our popularity is what they cannot block and must put up with. Talk of big stocks! Shout of immense piles of goods! GOUGH knows about what big stocks mean. Throughout Ontario, in the best towns, GOUGH has clothing stores. It is a notorious fact that he does the trade of the town. He buys cheaper and carries more goods than all competitors combined.

His last great purchase of wholesale manufacturer's stock at 60c on the \$ is a paralysis. This stock was manufactured by E. A. Small & Co, Montreal and amounts to over \$20,000. Owing to this immense stock a reply in our

main store, we were compelled to open another store. We could not get it all into our main store. Remember, within six weeks we have captured two stock amounts to over \$50,000, and when we say we are in a position to sell these goods at less than the ordinary merchant buys for, we can prove it. Ask the railroad people who sell the most goods and they will tell you GOUGH, by ten times. Notwithstanding the low price of wheat, and the cry of hard times with other merchants, we are ahead and should be ahead of the best sales on record.

Keeping the right clothing, selling at the right price, and giving Right, Value in the Happiest Way, has done it. GOUGH is proud of his success: Vive la GOUGH!

NEWS FROM THE CAPITAL

The Work of Perfecting the Navigation of Lake Nipissing.

NEALE SENT TO STONY MOUNTAIN

The Quickest Instance of Canadian Justice on Record—He Gets Seven Years—The Damages in Connection With the Sonlages Canal Lands—No Sale Ordered of the American Booms From Saginaw.

OTTAWA, Nov. 3.—W. P. Anderson, chief engineer of the Marine Department, has just completed the work of surveying Lake Nipissing, with a view of placing buoys and lightships where they would be most advantageous to navigation. The steamer Booth was placed at his disposal. Mr. Anderson has reported that it will take sixteen buoys and several lightships, including a large one on the Manitou Island, to make navigation perfectly safe. It is understood that Mr. Coste, the engineer of Public Works, will visit North Bay at an early date in regard to improvements to the docks.

A telegram to Commissioner Sherwood says that Neale, the absconding sub-collector of St. Mary's, N. W. T., has been sentenced to seven years in the Stony Mountain Penitentiary. It was the end of September when Neale skipped out of the penitentiary, and he has been traced, caught and punished in about a month, the Atlantic having been crossed and recrossed in the meantime, thus forming about the quickest instance of Canadian justice on record.

A. F. Wood, esq., M. P., P. P., Madoc, government valuator for the Sonlages canal lands, has 50 claims of damages to dispose of yet out of 300. He has several important claims before him, chief among which are those of the municipal estates, which the Government has purchased, and which reach fabulous sums. At Cascade Point the Government has encroached on some land laid out into village lots by Mr. Harwood, M. P., and that gentleman wants \$50,000. The Government says \$1,000 is sufficient. With this particular case and others the Government may have many civil actions to defend. His undersigned Mr. Harwood will sue at once.

The collector customs has been recalled from Sub Collector Fleisher at Saginaw, a deputy that he has ordered no such sale, and that, in fact, he had made no formal seizure of the material in question. It would appear further from this despatch that the collector that when the boats arrived to be held by the writer, the subcollector simply notified the owners that as manufacturers of wood from a foreign country, they were liable to duty at 20 per cent. There was neither forcible seizure nor threatened sale.

Surgery at Lake.
LAKESIDE, Ont., Nov. 3.—R. H. Little's general store and postoffice was robbed of some money and stamps. The burglars did not touch the safe. Three years ago the store was robbed there, and the burglars and \$253 taken. Since then Mr. Little has kept no money in it. It is believed a lad living in the village did both burglaries, and that they knew Mr. Little did not use the safe now.

Severe Earthquake in Mexico.
CITY OF MEXICO, Nov. 3.—A severe earthquake, lasting more than half a minute, shook the city last night. People and horses were thrown down in the streets. It is not known that there was any damage, although houses were much shaken. Hundreds of persons fell on their knees in the streets and prayed.

ANOTHER PERRAULT CAPTURED.

Four of These Desperados Are Now in Jail at Parry Sound.

PARRY SOUND, Ont., Nov. 3.—Since the capture by Detective Greer about ten days ago at Penetanguishene of two of the Perrault brothers, the celebrated Georgian Bay desperados, additional warrants were issued for the arrest of the two remaining brothers, and acting upon these Constables Greer and Quinn, of this place, the former a brother of Provincial Detective Greer, and the latter a brother of the Constable who gave tongue and so apprised their masters of the approach of danger. The officers made all haste, and succeeded in capturing one of the men. The other, however, made off and escaped. Four of the Perrault brothers are now in jail here and will be tried at the district sessions here on Tuesday.

Close of the W. C. T. U. Convention.

CORNWALL, Ont., Nov. 3.—At the commencement of the W. C. T. U. Convention yesterday Mrs. Rutherford presented the President with a beautiful bouquet of roses, which had been sent by a lady of Cornwall. Mrs. Thornley made a graceful acknowledgment. Several questions bearing on the work of the Union were discussed, strong exception being taken to the statistics published by the British Medical Association showing that there is greater longevity among those who use liquor than among total abstainers. Several speakers said this statement was entirely incorrect, and claimed that temperance journals had published positive evidence that the conclusion arrived at was erroneous. In the afternoon a memorial service was opened. Mrs. Gordon, of Ottawa, and Mrs. Pratt, of Hamilton, addressed the children in the Knox church.

Funeral of Mr. Mercer.

MONTREAL, Nov. 3.—The funeral of the late Hon. Honore Mercer took place yesterday. The attendance was in perfect condition. All the windows along the route of the procession were draped with black. The pallbearers were Sir Alexander Lacoy, chief justice of the court of Queen's bench; Hon. W. Laurier, ex-Hon. H. G. Joly de Lotbiniere, ex-prime minister of Quebec; Hon. F. X. Marchand, Liberal leader in Quebec; Mayor Desautels, of St. Hyacinthe; James McNamee, ex-mayor of Quebec; and Judge Bonjean, of Trois-Rivières, a former law partner of the deceased. Robert Mackay, a prominent English-Canadian, and a prominent member of the St. John Baptist society, and Hon. Pierre Bouchette, minister of public works. The service was celebrated at the Church of the Gesù, Monsignor Gravel being the chief officiant.

Another Canadian in Bow Street.

LONDON, Nov. 3.—James Mullin, the Montreal man who was arrested here on a charge of embezzlement, was arraigned at the Bow street police court yesterday. It was stated that Mullin had embezzled a large amount of money, the proceeds of sale from a shipment of horses belonging to James Darragh, of Montreal, and had been charged with the same. Mullin was remanded until the 5th of November and admitted to bail.

DETERMINED TO DIE.

A Young Toronto Man Makes a Determined Attempt at Suicide.

TORONTO, Nov. 3.—Albert Laycock, a stenographer who recently worked in the law office of Mills & Mills, Adelaide street east, made a deliberate attempt to take his own life by drinking about three-quarters of an ounce of laudanum. The poison was taken with whiskey, a full bottle of which was in his pocket. Laycock worked several years for Mills & Mills, and left two or three months ago. It is said by Messrs. Mills & Mills that he tried to take his own life about a year ago. The young man has been very despondent for some time, and on Thursday in the law office put a loaded revolver to his head and pulled the trigger. The bullet was at half-cock, however, and did not go off. It was taken away and locked up in the safe. He also admitted taking a quantity of laudanum previous to that.

Laycock was taken to the hospital in the ambulance.

He admitted to the doctor that he had tried to kill himself, but would assume no reason for the rash act. He declared if let go he would finish the job at once.

Trade in the Dominion.

MONTREAL, Nov. 3.—Business has been fair for dry goods throughout Nova Scotia, but the market in other parts has been checked by mild weather. In New Brunswick the lobster business is poor this season. Jobbers throughout Ontario continue to order for small lots and the result is a noticeable increase in the price of the goods. The provincial holidays have cut into business, although jobbers in groceries report an increased distribution. Midwinter trade prospects are not regarded as bright. The total number of failures reported in Canada this week is 46, as compared with 36 last week, 29 a year ago, 32 two years ago and 43 three years ago. Bank clearings at Hamilton, Toronto, Montreal and Halifax aggregate \$16,972,000, as compared with \$2,580,000 last week and as contrasted with \$16,075,000 in the week a year ago.

Relics of the French and Indian Wars.

NIAGARA FALLS, N.Y., Nov. 3.—A force of workmen were engaged in excavating around the ramparts of the historic old French fort in this city, overlooking the upper river. The massive stone chimney of this fort is still standing in perfect condition. The ground which the workmen explored had not been disturbed in over a century and in one place two perfect human skeletons and a sword were found. One of the skulls had a full set of teeth. The bones are believed to be those of victims of the French and Indian wars, and which are thick in this locality. The bones were divided among the workmen and relic hunters.

Shenandoah With Sonlages Indians.

VICTORIA, B.C., Nov. 3.—Sept. 17th of the city police force, has been examined from all blame for shooting and killing a Pohna Indian named Bulley on the Sonlages reserve in this city. A party of Indians attacked the sergeant and a policeman while they were arresting a drunken Indian. The police were being roughly handled, when Levin shot one of the Indians. They fled, but returned quickly with firearms and chased the officers back into the city.

Maritime Liberal Association.

ST. JOHN'S, N.B., Nov. 3.—The Maritime Liberal Association executive were in session in this city last night. Hon. H. Davis presided. After the close of the session an early hour this morning Mr. Davis and the executive transacted had reference to the forthcoming general election, making arrangements to control the current constituencies. The elections, Mr. Davis thinks, will take place in February as soon as the lists are made up.

FASHIONS OF LONDON.

THE CLOAK REVIEW SPECIAL CORRESPONDENT'S LETTER.

Enormous Work That Devolves Upon a Minute Fashion Writer Now-a-days—The Latest Mantles and Jackets and the Correct Vogue.

In writing of styles it should be remembered that more interest is centered in what will be worn the next few months than a post-mortem of the vogue a score or more of years ago. The writer is under no compulsion to describe in minute detail the style of today, but he can take his time in looking him, and nowhere can he be more so than here in London. It has been our pleasure to visit some of the warehouses, and a few notes taken en route may interest you.

Although the credit for producing the styles is often given to certain social leaders, this is more frequently due to the ingenuity of the manufacturer. The effect of certain leading retail establishments adopting like styles of garments and playing the same, has more to do with defining the fashion than is generally supposed.

The tendency here is toward plainer materials, and the abandonment of the gaudy trimmings. The work of designing is more particular in producing effective combinations. Heavy trimming, which was so popular last season, has given way to the strip of the same material or the garnish. Applique is very popular, and its scope knows no limit, being applied to the most surprising to the most elaborate.

The jackets generally are longer in the skirt and the sleeves also have gained in dimensions. Jackets of covert coatings are very popular and have color settings to be a leading favorite. Tight-fitting jackets of fringe cloth are extensively shown. The color (blue, green, orange, and red) and a chasmodon are popular materials, while a new color showing a light material is in the ascendency. Velvet also remains well. There is a marked tendency toward the return of the long palette. The favor shown cape is more marked than ever before. The popularity of the gold is so great that doubts are freely expressed as to its continued success. Another added feature is the re-appearance of elaborately designed buttons. Cornflower blue, with reversible cloaks, is a favorite color for capes, and black plush seems also to be reviving. In long ulsters for children's wear the Dorothy shape is in the lead.

The silk waist, or evening blouse as it is called here, bids fair to be an attractive feature; they have full blouse sleeves, while the front and back epaulettes are trimmed with black lace insertion.

The outlook for a large demand in fur garments is very promising. The low prices brought at the recent sale have placed this fur within the reach of popular demand and the result has been a revival. The three-quarter suit jacket will be a strong rival of the full length garment; full sleeves generally prevail. Necklets of sable are popular, and black fur is considered a fine trimming for cloaks and capes. Of trimmings in general a large assortment is seen in coyote and ostrich feather strips, the coloring of which are in plain and many fancy mixtures. Beaver and astrakhan also remain in favor.

A French coat, similar to the men's smoking jacket, is a novelty. It is made of velvet and has an accompanying vest of the same or lighter material; the front is finished with bow plaques and is closed with three buttons. Another stylish garment is a brown beaver coat trimmed with shawl, showing collar and cuffs of the same fur; it has pearl buttons, striped seam, and at points on the sides are the pockets.

One of the children's coats shown was of velvet in a new shade, trimmed with fur, showing a large collar and full sleeves. A red vest was also marked; it has the Cavalier collar. Another stylish garment for the little girl is made of cream tulle, and has a single cape trimmed with mouline or a double cape of plume cloth.

The tight-fitting palette will grow in favor as the season advances. One of the loveliest shown a new sleeve plaited to the elbow, the collar and revers of which may be sable, skunk or black fur. A fine plush jacket has the upper cape of tulle, more trimmed with ostrich feathers and a sequin trim. Another is the dolman shape, with the back fitting to the figure and a deep plaited cape, the long ends of which are trimmed with jet and pascuenterie.

In seal jackets is a three-quarter with subtle trimmings; some are tight-fitting around the waist, with full skirt, while others fit close to the back and are open in front.

—Capes are seen in unlimited variety. A pretty one is of soft tan beaver color, trimmed with blue fox; this trimming is also popular for a variety of checked black cloths. A cape characterized as the "Three-Becker" is also very widely shown. A pretty gown we saw was made by trimming a gray tulle or beaver cape with black fox fur. The Cavalier Cape in French gray, black, tan, brown and navy, showing fur collar and revers of which may be seal, as are also the Breche Vienna cloaks.

Trimmed with velvet, black silk and trimmed with jet. A striking fur cape is in the latter style, showing a high collar made of beaver, skunk, sable or seal, and a long, narrow skirt in gray color, spotted to represent the animal; another novelty. Still another has a shoulder cloak of different furs, such as otter, etc., with the head of the animal at one end and several tails at the other.

We remark upon the cleverness of a tea gown shown in "T" is made of seal, with a gathered black silk yoke, draped back and front with lace; the full front is encased with a low and wide of black ribbon. A distinctive feature is the sleeve, which is a full, long and wide puff to the elbow, then two frills and a smaller puff of black silk and light scarlet cuffs to the wrist, the cuffs being turned back and faced with black silk.

A late novelty here is the handkerchief patch, which is filled with these necessary articles ready for use. Also one in gloves made in all shades with pink and buttons to match. The chief feature is three small round cut, and the wrist, to match the buttons—London Correspondence of the *Cloak Review*.

Winter Amusements.

DEAR SIR,--The winter is almost upon us, and those who have taken any interest in skating or hockey during the past winter, will not doubt be looking forward to the coming winter, and the sport will be played here, both in the way of hockey and skating. Those who witnessed the game last winter, I have no doubt will be glad to see when I say that the Belleville boys had their own and better, against the game played here. Now the winter most needed here is a permanent one without skating rink, where people will be able to skate in all kinds of weather without endangering their health. Now if some of the wealthy gentlemen would take hold of this, and do something towards having a covered rink erected, it would be both profitable and encouraging to the boys.

THE REPUBLICAN VICTORY

Over Two-Thirds of the House Will Be Composed of That Party.

COMMENTS OF THE ENGLISH PRESS

Tammany Receives in a Great Measure the Blame for the Defeat of the Democrats.

Though a Victory for Tammany, the House will not indicate a return to McKinley.

NEW YORK, Nov. 8.--The return of the congressional election has but emphasized the magnitude of the Republican victory.

The number of Republican representatives has increased from 210, which constituted the probable number, to 341, and the Democratic and Populist ranks have thinned correspondingly.

The figures show that the Republicans will probably have not only a large majority but more than two-thirds of the House.

LONDON, Nov. 8.--The Standard, after ascribing the defeat of the Democrats to the influence of the party and to Tammany Hall, says: "We regret that the Democrats will not again be sent into the wilderness, for on the whole, they deserved a better fate."

The Daily Chronicle says that divided counsels, bitter inter-sectional squabbles, lack of co-operation among the leaders, and the feeling among the impoverished masses that the time had come to elect a new government were the main causes of the Democratic collapse.

The Daily Telegraph says that all admirers and well-wishers of the Democrats will find cause to rejoice at the result, especially at the complete defeat of the Tammany faction.

The Daily Graphic does not regard the result of the elections as indicating the recognition of the country to McKinley. The truth is, it says, that the Democrats have done nothing during their term of office, substituting the fulfillment of pledges and the realization of great principles.

The Daily News says: "The Republicans have come to power on the strength of the discontent felt at the close of the Democratic party's opportunities. The Democrats have done nothing during their term of office, substituting the fulfillment of pledges and the realization of great principles."

ROAD
IMPROVEMENT

COUNTRY ROADS.

An Old Roadmaster on the Conditions for Their Maintenance.

The building and care of roads by the localities themselves, the right of about the property owners to the centre line of the road, subject to an easement for public purposes, and the maintenance liability involved by such ownership, have important social aspects.

The making and care of a road under present local methods is founded upon road district patriotism. The archaism involves Godlike doing, for others, while the slough, holes, pit fall sluices and stone "pouces" from the stony heart of an unskilful road, epitomize the lack of public spirit. Broad ideas, willing hands, and love of one's neighbor are supplementary to good neighborhood road building; these given, needed appliances will be forthcoming, and the perfect road emerges from pre-existent imperfections. In short, spirit controls matter, and "what spirit ye are of" will determine the character of the roads in any locality.

If the spirit is for the road, then one of the first necessities is a good four-wheeled road machine. These machines are usually bought by the districts themselves, in which case it is customary for three or more districts to club together for joint use and ownership. The pay for these machines is usually made in instalments covering from three to five years—the districts paying one-half of their assessments on the road, and the other half on the roads. In some instances the towns have bought the machines outright, which is not so desirable, however, as for the districts to own them.

It has been the custom for towns to build all bridges larger than a six-foot span, and for the towns to supply plank and all in building bridges, running less than a six-foot span. Towns are now beginning to buy cast iron water service pipes for all sluices and supply them to the road districts for use. Such pipes are generally from 3 to 4 inch thick, which, in addition to the weight of the heavy loads, even in muddy going, and will last for all time. Being round they are less liable to catch the road scrapers when working the road, and all annoyance and expense of rebuilding and replanking sluices is done away with. The road is at all times entirely smooth and comfortable. Such pipes in carload lots can be bought at from 1.35 to 1.4 cents per pound—making the cost of a 12 foot, 4-inch sluice \$2.67.

With a road must depend upon conditions. Just wide enough and none to spare, and well taken care of, is better, but the road should be worked sufficiently wide so that teams are not compelled to travel in the same ruts in muddy weather, and should be so crowned and flattened in the centre to avoid water running in the tracks. Keep runways on sides of roads open and iron sluice pipes clear, to prevent the road bed from washing out and the road itself cleared from loose stone. Such a road once well formed needs but little care to keep it in condition—but that little is required.

Put the teams on road building and road working cheerfully, for what they do saves double their labor to the team itself in the course of the year, and the man gets his pay for the work done, three or four times over in the lessened wear and tear of himself and of his horses, and the thrilling dew of the commendation of his brother men who pass that way, repays it over again in the currency of the gods.

To remove rocks and such like obstructions, dynamite will be found very useful and cheap. Its use is simple and with ordinary care not dangerous. It costs but ten cents per pound. On days when and sidehills use the road worker on the upper side only; drain the road bed with iron sluice pipe, at proper intervals, and leave the lower side for a path.

One day's working with Jack Frost when he lets loose in the spring, and again when he commences "journey work" in the fall, will do more for him without him in summer time.—D. W. Lewis, of Sherruck, N. Y., in Good Roads.

Too Much Advice.

I read a good many papers, almost all of which agitate the subject of road making in a general, theoretical sort of way. They advise the government to build them, advocate state taxation, the sale of government land, a whisky tax, and other imaginary ways, but all ways do the only practicable solution of the difficulty to my mind, i.e., the farmer and those contiguous to the roads to be benefited. Just as long as we keep looking for something or somebody, nobody knows what or who, to provide us all with good roads to travel on, we are pretty sure to walk in the mud. When we are once thoroughly disincarnated of such ideas, and we realize that good roads, if they come at all, come the same way as good houses, barns, fences and other improvements, come by individual effort and expense, we will soon be able to enjoy them.

Judge Biggle says: "Don't build a road, but build a bed of mud the next time it rains. If there is any other available commodity suitable for making roads, we farmers would like to hear of it as soon as we can get it. It is in this quarter of the globe don't feel like treading on air these times.—Woodland (Wash.) Letter in Rural New Yorker.

Dirt and mud are the alternative conditions of dirt roads.

George Vanderbilt's Roads.

George Vanderbilt is a true believer in good roads and has a laboratory on the estate where an expert is employed in finding the best soils on the place as well as rock and stone for road formation. The result of these experiments, as well as those of agriculture, are freely furnished to all inquirers and put to practical use at Billmore. The result is that already around the mansion and at Billmore forest are ten miles of as fine driveway as can be found in the vicinity of any large and progressive city.

But before the improvements are completed this length will be increased to fifty miles. Macadamized stone, gravel, rubber and clay are the principal substances used.

Reading for the Home

It's an all important thing at this time of the year.
Good stories go far to make the fireside attractive.

By combining with other great newspapers we shall present to our readers day by day during the winter new stories by the greatest living story writers. Here is a list of our contributors:

Moscow, Nov. 12.—The Imperial party

with the body of Alexander III. arrived

here yesterday in typical Moscow weather.

The sky was dull, the thermometer was

two degrees below the freezing point, and

the wind blew fitfully throughout the

day. Although thousands were busy all

night past in the city in mourning for the

late Emperor, the streets at daylight looked

as if some great festival was to be cele-

brated. But for the hoofs of black

horses and the low, all-weather

person would have thought that the crowd

thronging every corner and open space

was come to celebrate a national holiday

rather than to lament the death of a power-

ful monarch. Such countless, universal

and unvarying grief is very small

BELLEVILLE, THURSDAY NOV. 15
CITY AND DISTRICT.

Of all the months that come and go, we should be most grateful for this one. To think November, since we know it's bringing us Thanksgiving.

There was a fair sized market this morning.

The propeller Ocean passed down the bay this morning.

The only occupants of the cells last night were two tramps.

The military corps of equality has been disbanded until the 22nd inst.

Kingston's curfew bell rang for the first time last night at eight o'clock.

Front St. day maintained its pre-eminence as the maddest street in Canada.

The Street Sweeper is doing a good work in filling up the holes alongside the granite walks.

The str. Magot will make one more trip before leaving at St. John, where she will have a new engine put in.

You are invited to the parlor social at the residence of W. H. Gordon, Church St., to night. Good program.

The grand opening of St. John's between the Rathbun Company's office and Hotel Quinn is being raised and widened.

Leave your card at Blythe's or Templeton and have your plan, time by W. W. Alton, 10 years with A. S. Nordheimer, Toronto, 12-17-94.

Corner Farley has accepted the position of coroner on the 1st inst. and will open the investigation on Tuesday evening next.

John Finkle will have a special sale of all kinds of Green Carden at a 10c per pound from present time until after the holidays. 163-12-94.

Chasney Ashley, owner of marriage licenses, Division Court, is at the street or at residence over Bennett & Bennett's store.

Pure blood is absolutely necessary in order to enjoy perfect health. Hood's Sarsaparilla purifies the blood and strengthens the system.

Persons who are in the habit of holding empty gas canisters should remember that the law authorizes a fine of from \$10 to \$100 for this sort of foolhardiness.

Ed. Powley was charged by Jonathan Spry with removing his property from the Spry's house on the 11th inst. He agreed to pay the \$25.00 fine.

Mr. H. K. Smith, Game Warden for East Ontario, is to be down to his job by the 15th inst. He will be in charge of the game laws, following the season.

A number of boys were again taking a racket on the corner of Front and Dundas Sts. last evening, but the police say they are like rats, as soon as they see the whole mob is from sight.

The first few days are often like the initial hours of a new year. The first day is a new day, and the first night is a new night. No matter how sharp the day, or how hard the night, the first day is a new day, and the first night is a new night.

"O. A.," a Canadian production, is a work that should be in every Canadian home. It is a magnificent publication, and only needs to be seen to be appreciated. Only 10 cents a number with coupon. No. 11-10-94.

Mr. W. P. Cromble's meetings in Bethel are growing in popularity. The first of the afternoon prayer from 4 to 5, which enjoyed by those who came. Last night the address of both Mr. and Mrs. Cromble. Mr. Cromble was full of points and power. No one can sit in front of Mr. Cromble without listening to what he has to say, and his hearty, manly way of giving out his epistles, usually makes a long impression on his hearers. Special prayer is being offered throughout the entire world this year for young men, and Mr. Cromble has not forgotten them. Quite a number of young men were present last night.

"SOCIALS PERSONAL"

Jas. Haggerty, M. P. P., was in the city to day.
The Queen arrived at Windsor yesterday morning at 10. She is expected to be in Montreal until the 28th inst.

Mr. George B. Tuckell is traveling from his recent address in Montreal.

Proctor & Laidlaw are not expected in Montreal until the 28th inst.

Mr. John J. Aronson, one of the most esteemed citizens of Montreal, died on the 13th, aged 61.

World has been received of the death, which took place, of Harold Jelliff in British Columbia.

The Rev. Dr. Chalmers is very ill in Montreal, and his condition is causing his friends great anxiety.

Dr. J. M. Forster and Mrs. Forster arrived from the west this evening and are the guests of Mr. J. W. Forster. He has been recently appointed Assistant Superintendent of Rockwood Asylum, Kingston and is on his way thither.

A Lovelock Swain.
A certain young man in this city has a propensity for proposing, but thus far has failed to get any one to accept his proposals of marriage. He can transfer his affections in a twinkling from a beautiful blonde, of no note, and at once refuse, his now low-calculated heart does not in another direction, making the whole thing a waste of time and effort.

One of the most interesting of the "Lovelock Swain" is a tale of fond affection, which is a tale of fond affection, which is a tale of fond affection.

Dr. J. M. Forster and Mrs. Forster arrived from the west this evening and are the guests of Mr. J. W. Forster. He has been recently appointed Assistant Superintendent of Rockwood Asylum, Kingston and is on his way thither.

Local Legend.
Toronto, Nov. 14.
Chasney Ashley, before Street, J. P. Murphy—Judgment in action tried at a jury at Belleville. Judgment for the plaintiff for \$1,011, with interest from 1st Aug., 1893, and costs. E. G. Porter (Belleville) and Cross (Mado) for the plaintiff. Meehan (Belleville) and Stewart (Mado) for the defendant.

Disinherited Heirs.
The heirs of Samuel Farrington, of Prince Edward county, who had inherited an estate valued at \$1,000,000, have obtained an order of administration directing that the estate be paid into court. All the heirs were by the will to be paid nine years after the testator's death, but the heirs have been disinherited.

A Test of Refinement.
It is said "the consumption of perfume is a fair test of a nation's refinement." Belleville's answer to this is a perfume bottle, which we have a select line at higher prices. We have just opened a choice lot of 25c per ounce—ALEX. RAY.

Warm Pen-Jackets.
A man who wears a nice warm coat and thinks an overcoat too clumsy and long, should come and see the Oak Hall pen-jackets at \$4.00. E. G. Porter, who does not want to be bothered with an overcoat, will find these short suits just what he needs. They are very cheap at the Oak Hall.

PROBABILITIES.
Toronto, Nov. 15.—Strong winds and snow, with a few flakes of snow, and mild; rain in some localities, chiefly at night.

All the Civic Committees, with the exception of the Executive, are to meet to night.

No harricane has yet been caught in the bay—noting but small pickers, hares and partridges.

A boulevard has been built in front of Emmanuel R. E. church which adds much to its appearance. The fence will be removed in the spring.

Go to night to B. Hall, Mr. Pearson, lately from the Barbados Islands, and Mr. W. P. Cromble, lately from London. English and Irish, with collection, \$100, all free.

The Cobourg business men are not pleased with the way the local market is doing. They are looking for a change in the market, and are looking for a change in the market.

The Hope and the Hope are looking for the purchase of a steamer that would run extensively for the benefit of the Hope.

Aid. Lombardi is pushing work on the skating rink and has the grading nearly completed. He will not allow hockey players on the large rink this winter, but will build a rink for that purpose if the clubs wish it.

In the Heather Quoth Club's tourney at Toronto, J. Haggerty was the winner. He was first prize, after a close and exciting game with Penock, by 3 to 2. W. K. Haggerty (who beat Haggerty) won in the second series.

Mr. Ray justly complains that the competitor has labelled our day, by making his local yesterday's "evening paper" instead of "a good perfume town." He says that wholesale representatives all think with Ottawa in this respect.

The Ottawa Town Council have signed a contract with E. W. Rathbun of Toronto, on behalf of a Company of which he is the head, for the construction of an electric railway from the city to the harbor. The road is to cost \$100,000, and will be completed by Sept. 30th next.

"Prepare for the worst, but hope for the best," says the old proverb. Hope for health, but be prepared for colds, coughs, croup, bronchitis, pneumonia, or any other throat or lung ailment by using Hood's Pectoral always at hand. It is prompt, safe, sure to cure.

The Bethel Bible Club have inaugurated fortnightly public meetings for the discussion of political topics. The first meeting will be held on Friday evening, 23rd inst., when the theme of the platform adopted by the Liberal Convention of 1893 will be discussed by a number of speakers in representative positions.

There are, perhaps, no neater built or better furnished homes in this city than the residence of Dr. J. M. Forster, corner Everett and Catherine Sts. Mr. Forster has been the host of many of the city's noblest and best people, and they look better than the best of the city.

There are, perhaps, no neater built or better furnished homes in this city than the residence of Dr. J. M. Forster, corner Everett and Catherine Sts. Mr. Forster has been the host of many of the city's noblest and best people, and they look better than the best of the city.

The public may not be generally aware that the Bethel Bible Club have inaugurated fortnightly public meetings for the discussion of political topics. The first meeting will be held on Friday evening, 23rd inst., when the theme of the platform adopted by the Liberal Convention of 1893 will be discussed by a number of speakers in representative positions.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

BELLEVILLE ONTARIO FRIDAY NOVEMBER 16 1894

Daily Intelligencer.

POOR OLD LI-HUNG-CHANG

The Chinese Are Making Fun of the Viceroys.

TRAMPING ON THE FALLEN ONE

The Population Have No Sympathy With their Feckless King, and Even Cast Curses in Which He is Held Up to Ridicule—The United States Proposals to Place Him Through.

London, Nov. 16.—A despatch to the Pall Mall Gazette from Yokohama says that the last fact at Port Arthur, concerning the Chinese in the rear, are much stronger than the seaward forts, the enemy having placed in them one hundred and fifty guns, and the Japanese expect that if the Chinese make any defence of these positions the engagement will be a sanguinary one.

The Shanghai correspondent of the Central News Agency says that the Chinese received the foreign Ministers' letter with a feeling of profound relief.

Li Hung Chang's vicissitudes have had a noteworthy effect upon his hold on the popular mind. A caricature published in the Chinese press on the walls represents him on the back of a tortoise with a cannon under his right arm, looking a Japanese carrier. Another caricature has a figure on a tortoise, the figure being Li Hung Chang, the lowest name of derision.

A Hiccup in the Negotiations.

Washington, Nov. 16.—There seems to be a hitch in the proposed United States mediation in the Chinese-Japanese war. The State Department officials remain silent on the matter, and the Chinese government has been imposed on the negotiations of the controlling power in the city. Nevertheless, it is understood that no notification has yet been received from Japan of the acceptance of the United States offer of mediation, though that proposition is embodied in Minister Dui's message to the Government at Tokyo nine days ago.

China, whom, through Minister Dui, the same proposition was made on the same date, is said to have replied at reluctant assent, hampered by conditions which do not seem to have been complied with. There is an impression that the valuing in diplomatic circles of the offer of mediation on the part of the United States may fail of its object.

A despatch from Cienfuegos says that the officials of the Cuban Government whose tendencies are pro-Japanese are reported to have been expelled from the beginning of 1895.

It is reported that Col. Van Zanten, who was present at the command of the Chinese army.

THE GOSSIP OF POLITICS

Divisions in the Ontario Liberal Ranks.

GENERAL ELECTION PROPHESIED.

There Are of Course Two Sides to This.

As to Every Other Story, It is Said That There Will Be a General Election Before the Next Session—Can it Be?

OTTAWA, Nov. 16.—There is a good deal of quiet talk about as to the likelihood of a general election before the next session of Parliament. The Liberal leaders, some of them, take the view, Mr. H. H. Halliday of Prince Edward Island told his friends at a reform caucus the other day that he said it was that way. It looks as if the new act of 1894, if that were an election, could be held before April 1. What then is the probability of a general election before the next session of Parliament?

THE ADVANTAGES WHICH LIBERALS HAVE IN SUCH A CASE ARE THE REASON (1) THAT IT IS NOT NECESSARY TO APPEAL TO THE COUNTRY UNTIL THE SEASON IS FAVORABLE, OR TWO SEASONS, FOR THAT PURPOSE. (2) THAT THERE IS AN OFF-TO-GO TO THE PEOPLE, THAT A PARTY APPEALING TO THE PEOPLE NOW IS SEEKING TROUBLE WHEN IT DOES NOT NEED IT. (3) THAT THE GREAT BODY OF MEMBERS DO NOT DESIRE AN ELECTION AT THIS TIME.

WONDERS OF THE HAND.

ONE OF THE MOST PERFECT PIECES OF MECHANISM.

Prof. Henry Drummond gives the following facts and figures of the human hand and the various movements necessary to its perfect action.

One of the most perfect pieces of mechanism in the human body is the hand. How long it has taken to develop may be dimly seen by a glance at the long array of pre-arranged instruments of precision which it holds away with never decreasing dexterity and performance as well as the wide range of its movements. At the bottom of that wide range is the thumb, the pivot of the whole system, the lever of the power, the fulcrum of the motion.

When it is withdrawn to the shoulder, a portion of its body is withdrawn, and, resting to the side, it is ready to receive the work and move back upon the body. This is the hand. At any point, at any moment, it is ready to receive the work and move back upon the body. This is the hand. At any point, at any moment, it is ready to receive the work and move back upon the body.

Watch, in the next place, the hand of an athlete, the hand of a soldier, the hand of a sailor, the hand of a farmer, the hand of a craftsman, the hand of a musician, the hand of a writer, the hand of a statesman, the hand of a philosopher, the hand of a poet, the hand of a saint, the hand of a hero, the hand of a martyr, the hand of a saint, the hand of a hero, the hand of a martyr.

Take full advantage of these great improvements—the hand has no thumb, or, if it has, it is but a rudiment. To estimate the importance of this apparently insignificant organ, try for a moment without using the thumb, to hold a book or write a letter, or do any simple piece of manual work. A thumb is not merely an additional finger, but a finger of an altogether different order of fingers, and as to be opposed to the other fingers, and thus possesses a practical efficiency greater than all the fingers put together. It is the hand which gives the organ of power to the hand, to hold, to manipulate, to the higher work, this simple mechanical device, in short, endows the hand of intelligence with its capacity and skill. Now these animals, like the colossus, which have no thumb at all, there are others, like the elephant, which possess the thumb, but in which it is not opposable, and there are others, the chimpanzee, for instance, in which the hand is in all essential identical with man's.

In the human form the thumb is a little longer, and the whole member more delicate and shapely, but even for the use of her higher product, Nature has not been able to make anything much more perfect than the hand of this so-called ape.

Is the hand then finished? Can Nature take out no new patent in this direction? The fact that so recently it is introduced in the case of man a proof that the ultimate hand has appeared? By no means. And yet it is probable for other reasons that the ultimate hand has appeared; that there will never be a more perfectly handed animal than man. And why? Because the causes which up to the point have furthered the evolution of the hand have begun to cease to act. In the perfecting of the bodily organs, as of all other devices, necessity is the mother of invention.

As the hand was given more and more to do, it became more and more adapted to its work. Up to a point it responded directly to each new duty laid upon it. But only up to a point. There came a time when the necessities became too numerous and too varied for adaptation to keep pace with them. And the hand began to fail. It was then that a new discovery of tools, heretofore which the hand used to do, was to be done by external appliances. So that it might be a more perfect hand than the hand of the ape, it was a better hand. Tools are external hands. Levers are the extension of the bones of the arm. Hammer are callous substitutes for the fist. Knives do the work of nails. The vice and pliers replace the fingers. The day that came when first split the marrow-bone of a bear, thrusting a stick into it and striking it home with a stone—that day the doom of the hand was sealed.

But has not man to make his tools, and will not that induce the development of the hand to an as yet unknown perfection? No. Because tools are not made with the hand. They are made with the brain. For a time, certainly, man had to make his tools, and for a time his workroom, pained him physically, and the arm became chafed and the fingers distorted by strain. But soon he made tools to make these tools. In place of shaping things with the hand, he invented the turning lathe, to give his fingers the rounded lines, instead of working his muscles he gave out the contract to electricity and steam, and, therefore, from his time forward he ceased to develop materially these organs of his body. If he develops them outside his body, filling the world with his works, his fingers are no longer the tools of his body, but the tools of his mind.

Evolution after all is a slow process. Its great labor is to work up to a point where invention shall be possible, and where, by the power of the human mind, and by the mechanical utilization of the energies of the universe, the results of ages of development may be anticipated. Further changes, therefore, within the body itself are made unnecessary. Evolution has taken a new departure. For the arrest of the hand is not the cessation of evolution, but the beginning of a new era, the era of the hand's escape into higher channels.—Prof. Henry Drummond, in The Ascent of Man.

The result of romance is forbidden by the Koran; hence popular tales are never put in writing among Mohammedans, but are passed from one story teller to another. One of the three dead ships possessed by Napoleon at St. Helena, and divided at his death among his companions, he sold by auction for one hundred and fifty francs.

Every immigrant landed in a French port from a steam vessel coming from a European port, by a device just invented, pays a tax of fifty centimes (ten cents) from any other part of the world he pays a franc.

Bergsels was a new executioner. He was a waiter in a saloon, and was dined by his boss on a day when he would try for the place. He was the best of the place, which carried with it a salary of some twelve hundred francs a year.

What Miss Surridge, Principal of the Toronto School of Cookery, Says:—

TORONTO, MONDAY, APRIL 2nd, 1894.
GENTLEMEN—I have much pleasure in saying SOUVENIR RANGE you put in as Hamilton for the use of the cooking class recently held there, gave me every Satisfaction. It is certainly the Very Best Stove I have ever used, being Cleanly, Reliable, and Most Economical, consuming an Astonishingly small quantity of Fuel.
I have the honor to remain, yours sincerely,
Signed, FLORENCE SURRIDGE.

THE PROPOSED FREE LIBRARY.

It is probable that a public meeting will be held on an early date for the purpose of discussing the above project. A wide variety of opinion exists as to the question of expense in that connection, and it is necessary, if the people are to be asked to pronounce on the project, that full information shall be given them on the subject.

SIR RICHARD OSBORNE.

In the *Canada Farmer's* of Nov. 7th, Mr. C. A. Miller, Grand President of the Patrons, replies as follows to the recent manifesto of Sir Richard Osborne.

Notwithstanding the repeated declarations of the Patrons body to the contrary, a portion of the party press editorially, and by correspondence, and persons who have been in contact with the party, are endeavoring to create a number of the leaders of the several political parties and factions, have appeared to be determined to lead the Canadian electorate to believe that an affiliation or coalition with the Liberal party would be to the detriment of the country. It is a well known fact that the Liberal party is a party of the party press editorially, and by correspondence, and persons who have been in contact with the party, are endeavoring to create a number of the leaders of the several political parties and factions, have appeared to be determined to lead the Canadian electorate to believe that an affiliation or coalition with the Liberal party would be to the detriment of the country.

SEVENTY-TWO YEARS OLD.
BRIDGE ST. SUNDAY SCHOOL CELEBRATES ITS ANNIVERSARY.

Two Powerful Sermons by Rev. A. C. Courtois, B.A., D.D., of Kingston, Delivered at the Anniversary of the Sunday School of the Methodist Episcopal Church, at Belleville, Nov. 17, 1894.

Yesterday was the seventy-second anniversary of Bridge St. Sunday School, and the services were held at the Methodist Episcopal Church, at Belleville, Nov. 17, 1894. The Rev. A. C. Courtois, B.A., D.D., of Kingston, delivered the main sermon, and the Rev. J. L. O'Brien, of Belleville, delivered the afternoon sermon. The services were held in the presence of a large congregation.

REV. A. C. COURTOIS.
Rev. Mr. Courtois's morning text was 1 Peter, i. 16, "If any man suffer as a Christian, let him not be ashamed." His text was, "If any man suffer as a Christian, let him not be ashamed." He spoke of the sufferings of the Christian, and of the glory that awaits him.

REV. J. L. O'BRIEN.
Rev. Mr. O'Brien's morning text was 1 Peter, i. 16, "If any man suffer as a Christian, let him not be ashamed." His text was, "If any man suffer as a Christian, let him not be ashamed." He spoke of the sufferings of the Christian, and of the glory that awaits him.

And, Clarke moved in amendment to the report that words "recent fire" be struck out and "the fire of 1902" be inserted. The board of Andrew's church, Fern building, Templeton block, Lewis block, Ontario Business block, and the Spence and Lockett be investigated.

The Gas Committee's report was next taken up. As to the old gas lamps Mayor William H. Spence said that the old gas company had sold \$120 worth of old iron to the Walker Company. He had said that the Spence said that number of old lamps they had bought, but got no answer.

The interim report was adopted.

With reference to the communication from Mr. Toll, asking that a deputation be present at the opening of the Inter Collegiate Missionary Convention, Ald. Diamond moved that the Mayor be asked to be present, and present an address of welcome on behalf of the citizens, on that occasion.—Carried.

Ald. Wills thought the cost of running a public library should be ascertained before a public meeting was called.

Ald. Landeberger said the minimum cost of running the library would be \$1,500 per year. He thought there was plenty of time to get the second reading next meeting.

Ald. Ponton said all that was required was the introduction or recommendation by a ratepayer that people outside the city could get the city's property. In reference to the Mechanics' Institute, it simply meant that that Institute was willing to hand over their library, valued at \$4000, and it would be

To Strength, No Ambition

Hood's Sarsaparilla Gives Perfect Results

The following letter from a well-known merchant tailor of St. George, N. J.:
C. L. Hays & Co., Lowell, Mass.
"Gentlemen—I am glad to say that Hood's Sarsaparilla and Hood's Pills have done me a great deal of good. I had a severe attack of rheumatism in the winter after getting over my grip in the summer. After trying many other medicines I did not seem to gather strength, and had no ambition. Hood's Sarsaparilla proved to be what I needed. It has given me a most satisfactory result, and I recommend this medicine to all who are afflicted with rheumatism or other ailments caused by poison and poor blood. I sometimes caught cold and had influenza. I always keep Hood's Sarsaparilla in my house and take it at such times as I feel weak. It gives me strength and makes me healthy. We also keep Hood's Pills on hand and find them useful. Write to us if you want more information."—J. M. GEORGE, New Brunswick, N. J.

Hood's Pills are perfectly pure, and do not give pain or grip. Bold by all druggists.

who have in vain tried every other means
of relief, should try "Schiffman's Asthma
Cure." No waiting for results. Its action
is immediate, direct and certain, as a single
trial proves. Send to Dr. R. Schiffmann,
St. Paul, Minn., for a free trial package,
and ask your druggist first.
